Education

- | | |
|---|--|
| • Maulana Azad National Institute of Technology, Bhopal
B. Tech in Computer Science and Engineering | November 2022 - Present
CGPA - 8.30 |
| • Nav Adarsh Vidhya Niketan H.S. School, RajNagar, Indore
Madhya Pradesh Board (Class XII) | March 2021
96.66% |
| • Govt. High School Dulhar, Khandwa
Madhya Pradesh Board (Class X) | March 2019
97.00% |

Technical Skills

- **Languages:** C, C++, Python, HTML, CSS, JavaScript, SQL.
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS, Mongoose.
- **Developer Tools:** Git, GitHub, VS Code, PostMan.
- **Cloud/Databases:** Cloudinary, MySQL, MongoDB.
- **Coursework:** Data Structures & Algorithms, OOPs, DBMS, Operating System.
- **Soft Skills:** Adaptability, Problem Solving, Leadership, Project Management, Time Management.

Projects

DOCART – MODERN MERN STACK E-COMMERCE ([repo link](#)) | [MERN Stack]

- Built a **MERN stack e-commerce platform** with Tailwind CSS, JWT + **Firebase Google Sign-In**, **Razorpay payments**, and **Cloudinary** integration, delivering a **30% faster load time**.
- Designed and deployed **RESTful APIs** for products, cart, orders, and users with **100% CRUD functionality**, ensuring **real-time updates across 10+ React components** using Hooks & Context API.
- Optimized for scale and security with validations, protected routes, and token-based access, achieving **25% faster response times**, **99.9% uptime**, and support for **100+ concurrent users**.

PARALLELCRYPT: MULTITHREADED FILE ENCRYPTOR & DECRYPTOR ([repo link](#)) | [Core C++ Project]

- Built a **C++ multithreaded file encryptor/decryptor**, handling **15+ concurrent operations** with up to **3x faster execution** than sequential processing.
- Optimized for performance and security, achieving **~20% lower memory usage** and a **99% success rate** in file processing.

RETAIL SALES ANALYSIS ([repo link](#)) | [SQL]

- **Built and optimized a retail sales database (~10K+ records) using SQL**, achieving 100% data cleaning by removing null/missing values and ensuring accurate analysis.
- Wrote **15+ SQL queries (JOINS, CTEs)** to analyze sales trends, customer demographics, and category performance.

SORTING ALGORITHM VISUALIZER ([repo link](#)) | [HTML, CSS, JS]

- Designed a dynamic sorting visualizer using HTML, CSS, and JavaScript to animate algorithms like **Bubble, Insertion, Selection, Quick, and Merge Sort**.
- Added controls for **array size (up to 200 elements)**, animation speed, and reset functionality to enhance interactivity and user learning.

Achievements & Experience

- **Collaborated with ERP Team at MANIT** to build responsive UIs with React.js & Tailwind CSS, enhancing accessibility for **10,000+ students** through effective teamwork.
- Tackled and completed **500+ DSA challenges** across platforms like [LeetCode](#), [GeeksForGeeks](#) and [Code360](#), significantly improving algorithm efficiency and coding proficiency.
- **Secured 3rd rank in Khandwa District (10th, 2019) with 97% marks**, showcasing strong academic excellence.
- Selected as an Event Management Team Member for **Maffick**, the institute's annual technical fest, contributing to the successful execution of events with 1000+ participants.

Position of Responsibility

- **Core Member at Zenith (The Programming Club of MANIT)** March 2024 – Present
 - Creating a collaborative coding environment to enhance skills across all student levels.
